

READY TO PLAY BALL

Magnates Succeed in Organizing League.

OGDEN GETS A FRANCHISE

Spokane, Butte, Salt Lake and Ogden the Big Four.

Lucas Is Continued President of the League, Which Will Be Known as the Northwesters.

Spokane, Wash., Jan. 16.—The directors of the Pacific National League met at the hotel here this morning and finished the business but making the schedule for the season. The schedule committee will meet in Butte.

The principal events of importance to the league were the reelection of W. H. Lucas as president of the league, the formal admission of Ogden and the withdrawal of Seattle without opposition. Lucas had anticipated the withdrawal of Seattle, and last week had secured Farrell to protect Ogden for the Pacific National league. Today he received an answer that Ogden had been accepted. The directors ratified the action of Lucas in this matter and formally elected Ogden's admission.

Butte was represented by C. H. Lane, and by W. B. Hinson, Salt Lake by John C. McKee, and Spokane by C. H. Williams. It was voted that the league should consist of four clubs, comprising the cities of Butte, Spokane, Salt Lake and Ogden. The official name of the league will be the Pacific National League of the Northwesters. Each club was on and with \$1000 for a guarantee to play the season.

RACES ON THE COAST.

San Francisco, Jan. 16.—John A. Scott, outsider, won the Adam Andrew selling stakes from Jockey Club by a head at Oakland today and broke the world's record for six and a half furlongs. He covered the distance in 1:35.5, the previous mark being 1:38.5, made by Jane Holly at Washington park. A field of eleven entered in the event, which had a value of \$10,000.

Senor Enrique Robles, the Spanish Bull Fighter, Who Will Appear at the Salt Palace January 23rd.

sweater and with his head closely shaved. Davies will do likewise.

Four Favorites Won.

Los Angeles, Cal., Jan. 16.—Four favorites and two second choices won the purses at Ancon today. The San Gabriel handicap hurdle race and a half, over five furlongs, and worth \$100 to the winner, was the feature of the card. Four favorites won, and the other two were easy for the favorites. The handicap hurdle went to Corrigan's big jumper, Charawind, which took up 32 pounds and won, pulled up, from Indian II, with Cambaceres third. Charawind was played heavily even at the short odds of 7 to 5, and went to the post at 3 to 5.

IN LOCAL ATHLETICS

(Continued from page 1.)

Institution. And I might say that most of the others did likewise.

AFTER CALLAHAN STILL

"I offered Mr. Callahan the position of coach, but he replied that his business made it practically impossible for him to accept. While speaking with Dr. Plummer I told him that I had offered Mr. Callahan the position and that he had practically refused. Dr. Plummer, and likewise Mr. Anderson, whom I spoke to later, seemed to be of the opinion that a strenuous effort should be made to prevail upon Mr. Callahan to take the football team for at least one year."

EXPERTS IN SPORTS.

The members selected by President Kingsbury are all exceptional well qualified for the positions to which they have been selected, and are well known as prominent supporters of good, clean, reputable amateur sport. They come from large colleges where they have left enviable records behind them, but they still retain their former love for athletics.

CAME FROM OLD ELI.

Mr. Callahan is a Yale man, and played full on the team until his collarbone was broken. His subsequent local work is too well known to need any telling. He brought out the famous old High School team which won the State championship and never knew defeat. Since then his increasing business has compelled him to retire from the active field, but he has found time enough during the last two years to bring out a winning team for the same school. Many of his turn-outs have been successful in making college teams and their work has been of such a nature as to cast the best reflections on their old instructor.

DR. PLUMMER'S PADS.

Dr. Plummer is an admirably built man and an athlete in every sense of the word. He was the crack center on Northwestern, and has a reputation for tossing weights. He is also an interested spectator at football contests and knows the game.

CHANNING WAS A TIGER.

R. C. Channing is a Princeton man who served with distinction on the big school eleven and was later given a position on Walter Camp's All-American team. Besides being a football player, he has won considerable of a reputation as a golfer.

EATON KNOWS THE GAME.

Principal George A. Eaton is a Harvard man, and every High School student knows where his heart is, at least so far as athletics is concerned. While at college his heavy course prevented him from taking any very active part in football, but he was a good trackman and won distinction in throwing the hammer. He has a handsome physique, which speaks well for his athletic training. His appointment to this position will have much to do in ameliorating the old feeling between the two schools.

"PAT'S" BROTHER FRANK.

Frank Anderson is a mining engineer and a graduate of Michigan. He took an active part in athletics while in college, and his interest seems to have been increasing ever since. His face is a familiar one at the football contests, while he has a reputation as a fancy skater. He is a brother of the late Pat Anderson, the famous old High School guard.

HEATH BROS.' RINK.

Good skating today at Heath Bros.' rink, Ninth South and State street. Music in attendance.

We have moved to No. 12 West Third South. Will be glad to meet our old friends and customers in our new location. On account of cheap rent we will be able to give our patrons the benefit of same, and will sell good goods cheaper than ever.

TOM & JERRY CLOTHING HOUSE, L. N. Lewis, Prop.

STATE NEWS

(Continued from Page 3.)

and church affairs, having taken a very active part in the organization of this ward and stake. He led the ward choir for the past twenty-seven years, and the stake choir was conducted by him for over twenty-five years. He took a prominent part in all entertainments of a musical nature during that time. Deceased was also a member of the presidency of the twenty-seventh quorum of Seventies in this stake, and secretary of that quorum. He was an honest and sincere Latter-day Saint, and in all his transactions was regarded as a very honest man, being right in his dealings. He had been employed by the Coalville Co-op for the past twenty-four years, and was also to be discharged from that place. Deceased leaves two wives and nine grown children, besides hosts of friends to mourn his loss. The funeral will be held Sunday afternoon from the stake Tabernacle and will be largely attended.

RELIEF FROM SMALLPOX.

Disease on the Wane at Brigham City.

(TRIBUNE SPECIAL.) Brigham, Utah, Jan. 16.—The Board of Health and Mayor Hallet met Thursday evening and considered the smallpox situation. It was shown that the epidemic was slightly on the decrease, and the disease generally in mild form. It also appeared that none of the cases here are due to schools or public gatherings, but rather to individual exposures outside of the city. The conclusion of the meeting was that the strict quarantine enforced at the present time is a sufficient safeguard. Three cases of diphtheria are reported in the city.

Postmaster Booth has a force of men at work fitting up the new quarters for the Pioneer Hotel. The new office will be much more convenient and commodious, the number of lock boxes being largely increased and the general arrangements up to date in every particular.

The Death of William Pearson.

Draper, Jan. 16.—The people of our community were very much surprised to hear of the death of one of our promising young men, William Pearson, who died at Las Vegas, N. M., on January 8th, of an apoplexy. The young man had been there for several months and his death is a severe shock to his family and friends. He was 25 years of age and had been raised in our town, being a brother of Henry Pearson, a well-known citizen. He was a young man of sterling character and was liked by all. He leaves a wife, a father and several brothers and sisters and numerous friends to mourn his death. The arrival of the body today was the cause of a very pathetic scene. The funeral will be held in the Draper ward meeting-house on Sunday, January 17th, at 2 p. m.

Bean vs. Annie Laurie.

Richfield, Jan. 15.—The case now on trial in the Sixth District court between John F. Chidester in Richfield is that of William J. Bean vs. the Annie Laurie. The plaintiff, John F. Chidester, is a resident of Richfield. The defendant, William J. Bean, is a resident of Richfield. The case is a dispute over a written contract. Bean claims that the mine failed to pay him the contract price for lumber furnished, and the mine contends that Bean did not live up to the terms of the agreement. Another day in court will be required to try the case.

Celebration at Parowan.

Parowan, Jan. 13.—This being Pioneer day, it is being celebrated for that occasion. It is fifty-three years ago today that the pioneers of this section of Utah arrived in this section. Today dinner was served at 12 noon for all that came here the first year, with an invitation to all who wished to come to the celebration. The day was spent in songs, speeches, etc., winding up with a dance for the public to enjoy. Alex. Orton, who got hurt last Saturday, is now improving. He recognized those around him today, and spoke a few words. It is now hoped that he will recover.

WHAT IS GOING ON IN UTAH.

Miss Belle Foulger of Salt Lake is visiting Mrs. Ivor Ajax in Tooele.

W. K. Morrison, an electrician, has moved from Pocatello to Brigham City.

Mrs. John Eardley and Charles L. Walker, old residents of St. George, are now in Arthur, Neely, Lawrence, Mortenson and others have located a section of oil land west of Corinne.

Hon. Mosiah Evans is making preparations to erect a handsome residence at Garland, Box Elder county.

The fee put up in Brigham City the past week has been the best harvested in several years, being unusually thick and pure.

Mrs. Alice Johnson of Corinne has located an oil claim, which she has named "Carrie Nation." It ought to be a gusher, says the Brigham City Herald.

Brigham, the seventeen-year-old son of Mrs. Adel Kimball of Kanosh, while helping to corral a band of wild horses, got a fall and fractured his left leg.

While playing ball at Santa Clara John Stucki had both his legs broken between the knee and ankle by coming into collision with the second baseman.

Wood-hauling seems to be the most important occupation just at present at Santa Clara, and is engrossing the attention of nearly all the men and boys of the place.

The young ladies of Santaquin set a good example to the young men in not allowing any time to be wasted between dances at a leap year ball, says the Eastern Globe-Header.

"Salt Lake is boasting of a hurricane, a snowstorm and a big lightning and thunder storm all going at the same time in that city. Salt Lake can boast of more freak amusements than the most of the great cities of the Union," says the Tooele Transcript.

Miss Enzell Driggs, daughter of Parley P. Driggs, died at the family residence in Pleasant Grove from pneumonia, after several weeks of suffering. She was born in that city April 23, 1881. The deceased was a devoted girl, beloved by a large circle of relatives and friends.

The Kanosh correspondent of the Fillmore Progress-Review, sends this hymenaeal news: "John Roberts, aged 50, and Lillie Christensen, aged 31 years, were married on the 8th. John has a splendid family of six sons and three daughters, and Lillie has four lovely boys. The omnibus number 13 has no terrors for the truly brave."

At a meeting of the stockholders of the Spanish Fork and Lake Shore Creamery company, a report was read showing the company to be in a healthy condition and declaring a dividend of 1 1/2 per cent on the capital stock for the past year. The following directors were elected for the ensuing year: Rees D. James, president; George Hone, John Jones, Hubbard Tuttle, Henry Tilley, Jobe Meason and Hyrum Argyle, directors; J. J. Banks, secretary and treasurer.

The Ephraim Enterprise says: "Mrs. August Stevens, assisted by Mrs. Muritz Anderson, Mrs. Charles Stevens and William Bowden, gave a dancing social at the Opera-house Tuesday evening in honor of the anniversary of the arrival of Mrs. Stevens in Utah. She arrived in this country in the year 1852, and there are only two members of her family now alive today. Mrs. Stevens being the only member in this part of the country. The other member is living in Salt Lake City."

TO BAR CHINESE.

Panama Constitutional Convention Will Restrict Immigration of the Yellow Men.

Panama, Jan. 16.—At the second session of the Constitutional convention held this afternoon recommendations were presented providing for the prohibition of Chinese immigration except to those coming to engage in agricultural pursuits, the adoption by the Republic of the Constitution of Columbia of 1886, except the parts of it is opposition to the present Government, until the convention perfects one, and authorizing the junta to make a \$500,000 loan. A dispatch from Bogota says: The Conservative and Nationalist parties have named as their candidates respectively for President and Vice-President Gen. Joaquin Veloz and Gen. Vasquez Cobo. The Government sympathizes with the new ticket.

ENGLISH RAILROADS.

Two Hundred and Thirty Systems for 22,000 Miles of Track.

One reason for the rapid advance of American industries and the relatively slow progress of Britain in the same respect is the cheapness of freight rates on this side of the water and their expensiveness upon the other. The English railway systems total only 22,000 miles. Yet this comparatively small mileage is the property of 230 companies, more than half of which have their separate administration and executive. The others are "leased and worked lines." Allotting an average of eight directors apiece to each of the 125 independent companies, the English railways support 1000 directors, whose fees can hardly be less than \$1250 a year.

The railroads of India cover a mileage of about 26,000. Yet Mr. Thomas Robertson, the expert, who has recently reported to the British government on Indian railway administration, says that the task of supervising the lines of that vast country might safely be entrusted to a board of three qualified men, assisted by a secretary, a chief inspector, and a number of inspectors and auditors. Three experts, with a small staff are considered by Mr. Robertson capable of performing duties of about the same character as those for which in England are employed 1000 amateur directors, with their secretaries and assistant secretaries, accountants, auditors, clerks, messengers, etc.

If only half of the sum of \$125,000 a year paid away annually in fees to railway directors were available for a centralized railway board, it would be possible to attract the ablest men, and yet making a saving.

The saving by "standardization" is also to be considered. The Harriman roads, 17,000 miles, are to unify their machinery so that all "parts" of rolling stock shall be interchangeable. The consolidation of American roads has gone much further than in Britain. The Vanderbilt and Pennsylvania systems contain about 20,000 miles each, either one of them nearly equaling the 22,000 miles of all England. And though the individual roads in these systems have in some cases their separate boards, these usually consist of practically the same men. Many important lines are also "leased and worked." Against the 230 systems of 22,000 miles—less than 100 miles to a line—in England, the Vanderbilt and Pennsylvania systems include together less than twenty component lines, or an average of more than 2000 miles per line.

The longest single line in the United States, the Southern Pacific, has over 9500 miles of track—London Outlook.

SOCIALISTS LINE UP.

National Committee Makes Elaborate Plans for the Convention, Which Is Called for May.

Omaha, Neb., Jan. 16.—The National Socialist committee is holding a meeting at its headquarters today. The referendum vote in proportional representation was canvassed today and the proposition was found to have a large majority. It provides for one national committee from each State, he to cast one vote for each 100 dues-paying member in his State. The plans for the national convention on May 1 in Chicago includes a monster Labor day demonstration, which it is expected will have a good effect in stirring up party enthusiasm. The re-election of W. M. Mailly of this city as national secretary-treasurer is highly probable.

Elk Horn Whiskey—Nine Years Old.

For \$2.40 we ship in plain boxes to any point on the railroad in Utah, Idaho and Wyoming, express prepaid, four full quarts of the above well-known brand, a fine old mellow whiskey, guaranteed to give satisfaction. Remit either by money order or bank exchange. For reference, any express company or National Bank of the Republic. H. REILLY, Elk Liquor Co., Cor. State and 1st Sts., Salt Lake City, Utah.

Wind and Blizzard Warnings.

Washington, Jan. 16.—Storm warnings are displayed on the Coast from San Francisco northward.

Cold wave warnings have been issued for Wisconsin, Illinois, Indiana, north and central Ohio, western Pennsylvania, Missouri, Kansas, Nebraska, southern Mississippi, southern Alabama and western Florida.

May and December Wed.

Mr. and Mrs. J. Homer Altman have returned to their home in Brooklyn, N. Y., after a visit to Salt Lake City. Mr. Altman is 38 years old. Mrs. Altman was formerly Mrs. Carrie D. A. Spink, is 22 years old. The ceremony was performed by the Rev. Francis Edgar Mason in Brooklyn, N. Y., on Wednesday night. Mr. Altman is a prominent spiritualist of Washington. Mrs. Spink is one of the oldest teachers of dancing in this city, and to be a member of one of her classes is to achieve distinction. She has taught members of the Rockefeller, Iselin, Goddard and other prominent families to dance. Every effort was made to break off the match by Mrs. Spink's friends, but without avail—Providence dispatch to the Chicago Inter Ocean.

SHEEP AND CATTLEMEN, ATTENTION!

We are offering for lease and sale 40,000 acres of spring, summer and fall range for cattle and sheep in East canyon. For terms apply to BRIGHAM T. CANNON, 24 East South Temple St., Salt Lake City.

They are synonymous—

Husler's Flour

And your money. It's an even trade either way. One is as good as the other.

WHAT MYSTERIOUS POWER DOES THIS MAN POSSESS?

THE DEAD BROUGHT BACK TO LIFE.

Would Hardly Create a Greater Sensation Than Some of the Miraculous Cures He Performs With a Strange, Mystic Fluid Unknown to Medical Science.

Doctors Admit Facts, But Unable to Explain

Secret of His Marvelous Power Over Death.

HEALS THOSE HUNDREDS OF MILES AWAY THE SAME AS THOSE WHO CALL IN PERSON.

Refuses Pay for His Services—Says His Discovery Is God-Given and That It Belongs to All Mankind Free of Charge.

(From the Louisville Post.)

NEW YORK, Dec. 14.—Dr. Wallace Hadley, a well-known professor of chemistry of this city, has undoubtedly made the most sensational discovery of the age. Call it divine power, science or whatever you will, the fact remains that in a single night, so to speak, he has completely upset modern medicine and utterly discomfited scientists and medical men. Physicians have sought out their worst cases and taken them to him, thinking they could find one he could not cure. They admit that all their own remedies are but bread pills as compared with the remarkable discovery of this wonderful man. He has already done practically everything but bring the dead to life, and the scientists are now on the qui vive, expecting him to do this next.

"How did you happen to make this great discovery?" asked a reporter, who called on Dr. Hadley at his laboratory. "I have been convinced that no disease should cause death. God has in my judgment provided a cure for every ill to which the human flesh is heir. Man must search and find this cure the same as the man discovered the telephone, the telephone, etc. The first thing I set out to do was to find the exact elements which compose a living being and make a man's heart beat and his body live. I next determined to extract these products from the animal, mineral and chemical substances, and other things as they are found in a living being. I worked for years, day and night, before I made any great progress. When I discovered nearly all came at once. As soon as I had made it I tried the preparation on myself, then I gave it to all the sick persons I could find. I noticed doctors to send me their supposed incurable cases. The results were simply miraculous. They for the most part, however, were particularly remember the case of Mrs. Sarah Miller,
